Erika Vogel
Township Administrator

Dear Butler Township Resident:

I am writing to you today to keep you informed about the PFAS water contamination issue and to request your assistance in helping the Township continue its efforts on your behalf.

Your safety and welfare are the most important concerns of your Butler Township elected officials and staff. To date, the Township has:

- Offered to pay the tap-in fee (\$1,000) for Township residents who wish to connect to the new City of Union waterline on Martindale and Frederick Pike.
- Entered into discussions with Montgomery County to explore next steps and availability of public water from adjacent jurisdictions for Butler Township residents.
- Voted to dedicate American Rescue Plan (ARP) Act funds for studies, plans, and infrastructure improvements related to clean water for township residents.

In order to keep this process moving forward, it is important that the Township have the information necessary to make the best decisions in your interest. This includes determining how many residents have been impacted by PFAS contamination, the status of well testing and the results of this testing.

Toward that end, we ask that you visit the Butler Township website to take a brief survey that will provide us with this information. You can access the survey at butlertownship.com/community/water-contamination-issue/. This website page will also house general information about the water contamination issue and be continually updated so you can stay informed on all developments related to it.

The Township will continue to work with you and provide you with information as conditions warrant. In the meantime, you can always reach me by phone (937-898-6735) or email (evogel@butlertownship.com).

Thank you for your time. And please take the survey. It will help us help you!

Sincerely

Erika Vogel
Butler Township Administrator
